New Doctors Express location in Wilmington Making Waves in the Healthcare Community

Governor Jack Markell Makes an Appearance at the Grand Opening

This new concept in healthcare is gaining national attention, including that of Delaware's Governor Jack Markell. Doctors Express prides itself on providing quality health care without having to make you wait for hours to be seen by a physician. And, as part of the first-ever national franchise of walk-in medical centers, Doctors Express combines local ownership with the scale of a national network. What this means for Wilmington area residents is a system like no other...a convenient and cost-efficient way to receive the best medical care for non-emergency situations.

More than 300 people were in attendance as Doctors Express owners, Ed and Terri Murphy officially opened their doors to patients on Saturday, October 16th. Governor Markell stopped by to help kick off the grand opening and support this unique type of healthcare within the community.

Your average wait time at a Doctors Express is less than 20 minutes, and you're cared for by experienced local doctors during all operating hours, including weekends. Say your child gets hurt during a soccer game early Saturday morning. Instead of waiting for hours inside an emergency room, and then running around town for x-rays and to fill prescriptions, you can turn to Doctors

Express for all your care under one roof.

Both children and adults can be seen at Doctors Express. They treat the typical colds and coughs and cuts and bruises, as well as x-ray and diagnose broken bones, test and give immediate results for strep and mono, and fill most prescriptions right on the spot. And you can stop in a get your seasonal flu shot.

The new Doctors Express is located at 2105-A Concord Pike, in the Fairfax Shopping Center in Wilmington. The center accepts most insurances and is conveniently open to serve your healthcare needs Monday – Friday, 8 a.m. to 8 p.m. and Saturday-Sunday, 8 a.m. to 5 p.m.
